Who said your Uncle RUSSELL SAGE was a mean old skinflint? He gave \$5,000 for the San Francisco sufferers.

THE San Francisco calamity will cost the Government from \$15,000,000 to \$20,000,000 for restoration of the Public Buildings destroyed.

"Why not give the men with the muck rakes a job on the Panama Canal?" asks The Courier-Journal. Cause why—they are all now industriously engaged on the Magazines and the Yellow Journals.

Those insurance companies that take advantage of technicalities to avoid payment of their losses in San Francisco ought to be kept in mind by every property owner when he places a policy. The fellows who step up quick and settle like men are the fellows to tie to.

Police authorities at Montclair, France, found a bomb, to which a burning fuse was attached, on the window sill of the library of former President Loubet's villa, where he and his family are spending their Easter vacation.

The work of clearing up the debris in San Francisco goes steadily on. Wherever it is possible business is being resumed—temporary structures are being erected; the inquiry into the condition of the Bank vaults has been completed; the organization and preparation for service of the street railway have so far advanced that the company expressed its readiness to resume business whenever the Mayor would permit; the water company announces the completion of such repairs as enables it to supply a total of 12,000,000 gallons daily. In fine, there is all the evidence to put at rest the fear of those who predicted that San Francisco would never rise again.

Mr. and Mrs. Claude H. Toile expect shortly to move from St. Louis to Chicago.

\$450 and up will buy comfortable homes on easy payments. Why pay rent? You can own a home. See John Duley at once.

Mr. George M. Clinger, who was struck by a C. and O. engine yesterday morning, had a very bad night and is suffering greatly this morning. His stomach refuses to retain even medicine and water.

For the second time the Court of Appeals Tuesday reversed the judgment of the Greenup Circuit Court in a damage case of Otto Willis against the Maysville and Big Sandy Railroad Company, and remands it to the Lower Court under instructions and for new trial. Damages for personal injuries is sought to be recovered in the petition.

The Governor General of Veronezh, Russia, has hastily left for the village of Diawitz, where, it is reported, Cossacks have killed nineteen and wounded fifty persons in suppressing disorders.

Delegates from England, Ireland, Scotland and Wales and from every section of this country are in Philadelphia participating in the two hundredth anniversary of the organization of the Presbyterian Church.

ONE of the recent occurrences in San Francisco will show the uninitiated what martial law means. A young son of T. P. RORDAN, a well known real estate dealer, was on his way home and had a bottle of whisky in his coat pocket. The soldier on duty ordered him to stop and throw the whisky away, and, when he refused, the soldier immediately shot him dead.

Couldn't sit down.

"I beg your pardon, but I'm in trouble," said a man who was well dressed and plainly excited, to Sergeant Temperly at No. 3 Police Station, Armourdale, according to The Kansas City Journal. "Can you help me out?" "I'll do my best," answered the obliging Sergeant. "Sit down and tell me about it."

"No, I simply can't sit down," said the man, nervously.

"Must be serious to effect you like that," said the Sergeant. "What is it?"

"You see, it is this way," said the man. "I came in on an early train from the West, and as I got up late, when the train was but a few minutes from the Union Depot, I dressed in all haste. I had some business to attend to in Armourdale right away, and I paid my street-car fare from some change I had in my overcoat pocket. But when I was standing at the corner of Fifth and Kansas a moment ago for the first time I unbuttoned my overcoat and looked inside and found—"

"That you had been robbed while on the train?" broke in the Sergeant, interestedly.

"No," said the man, "I found that I had put my trousers on backward and I can't sit down. What I want is a private place to change 'em."

He got it.

MORE THAN MIXING

Prescription compounding is more than weighing, measuring and mixing. Sometimes it isn't, but it ought always to be. To rightly and safely fill prescriptions requires a knowledge of drugs, their properties and chemical affinities. A prescription specifies the drugs and quantities only; the druggist must know in what order and manner the ingredients must be combined. Ignorance or error can easily impair the compound.

We know prescription work thoroughly, and our drugs are of standard potency. You can safely entrust your prescriptions with us.

May 1st is expected to inaugurate a general strike, followed by rioting and bloodshed, in Paris. The police canvass shows that 80,000 men have already stopped work, of which number the disorderly element does not exceed 20,000. Against these can be massed 42,000 to 45,000 troops, namely 20,000 infantry, 10,000 cavalry and 10,000 to 15,000 Republican guards and police, with large additional reserves.

The steamer Clifton, which was seized for debt two years ago and has been in litigation at Parkersburg ever since, was sold Saturday at public auction by order of the United States Court for \$5,000 to George F. Jones, one of the litigants.

The work for the surveying of the Ohio river for a nine-foot stage of water between Louisville and Cairo, as an extension of the surveys which have been made, will be begun about July 1st, next. Last year the work was being done by one party of surveyors. This year the work will be continued by two parties, so that the report can reach Congress when it opens next winter. The work was stopped about three miles above Owensboro.
